

Notice to Coverall Manufacturers in India

Emergency procurement of COVID 19 Medical Supplies: It may be noted that we have already placed purchase orders for PPE Coveralls (for the quantities as mandated by the Ministry of Health & Family Welfare, Govt. of India) on a large number of suppliers. At present we are not placing any fresh orders on new suppliers. If your coverall has already passed the mandated Synthetic Blood Penetration test, you should consider registering your company on the Govt. of India's GEM portal and explore supply options to various States/UT's/Central institutions and even private hospitals as per requirements. It is understood that States/UT may procure directly from companies through GEM portal.

This is for your kind information and necessary action.
