Air Conditioning Works BOQ - Phase I - Testing Area, HLL KFC Kakkanad				
Description of items			Rate (Rs.)	Amount (Rs.)
Supply, fabrication & erection of GSS sheet metal ducts rectangular ducting complete with neoprene rubber gaskets, elbows, splitter, dampers,vanes,hangers, all necessary supports from truss/ wall etc as per approved drawings & specification of following sheet thickness				
Thickness 0.63 mm sheet	SQM	285		
Thickness 0.80 mm sheet	SQM	53		
Thickness 1.0 mm sheet	SQM	6		
Supply and fixing of External thermal insulation on supply air ducts using min 12mm thick nitrile rubber class "O" closed cell type with antimicrobial protection and aluminium foil vapour barrier as per specifications	SQM	310		
Supply and fixing of Acoustic duct lining using 10mm nitrile rubber insulation open cell type inside the ducts, antimicrobial protection at the outlets of all indoor units upto 4m distance from fan outlet as per spec provided.	SQM	31		
	Description of items Supply, fabrication & erection of GSS sheet metal ducts rectangular ducting complete with neoprene rubber gaskets, elbows, splitter, dampers,vanes,hangers, all necessary supports from truss/ wall etc as per approved drawings & specification of following sheet thickness Thickness 0.63 mm sheet Thickness 0.63 mm sheet Supply and fixing of External thermal insulation on supply air ducts using min 12mm thick nitrile rubber class "O" closed cell type with antimicrobial protection and aluminium foil vapour barrier as per specifications Supply and fixing of Acoustic duct lining using 10mm nitrile rubber insulation open cell type inside the ducts, antimicrobial protection at the outlets of all indoor units upto 4m distance	Description of items Supply, fabrication & erection of GSS sheet metal ducts rectangular ducting complete with neoprene rubber gaskets, elbows, splitter, dampers, vanes, hangers, all necessary supports from truss/ wall etc as per approved drawings & specification of following sheet thickness Thickness 0.63 mm sheet SQM Thickness 0.80 mm sheet SQM Supply and fixing of External thermal insulation on supply air ducts using min 12mm thick nitrile rubber class "O" closed cell type with antimicrobial protection and aluminium foil vapour barrier as per specifications Supply and fixing of Acoustic duct lining using 10mm nitrile rubber insulation open cell type inside the ducts, antimicrobial protection at the outlets of all indoor units upto 4m distance	Description of items Supply, fabrication & erection of GSS sheet metal ducts rectangular ducting complete with neoprene rubber gaskets, elbows, splitter, dampers,vanes,hangers, all necessary supports from truss/ wall etc as per approved drawings & specification of following sheet thickness Thickness 0.63 mm sheet SQM 285 Thickness 0.80 mm sheet SQM 53 Thickness 1.0 mm sheet SQM 6 Supply and fixing of External thermal insulation on supply air ducts using min 12mm thick nitrile rubber class "O" closed cell type with antimicrobial protection and aluminium foil vapour barrier as per specifications Supply and fixing of Acoustic duct lining using 10mm nitrile rubber insulation open cell type inside the ducts, antimicrobial protection at the outlets of all indoor units upto 4m distance	Description of items Rate (Rs.)
