Lactohil

Natural choice for Lactation

Lactohil Granule

Lactohil is an Ayurvedic formulation based on Stanyajana-narasayanam provided in granular form. This herbal product is known to improve lactation and general health of the pregnant woman. The herbal combination of Lactohil increases prolactin hormone which is involved in lactation and development of mammary glands. The galactagogue activity of roots of *Asparagus racemosus* can improve lactational inadequacy in lactating mothers. *Cuminum cyminum* helps to increase secretion of milk in lactating woman due the presence of Thymol and also Cumin is rich in iron and calcium.

100%
Safe
